

A Journey of Transformation to the Community of Damanhur in Italy

September 16 – 29, 2007

Damanhur is a large esoteric community founded in 1979 in the Valchiusella valley north of Turin, Italy. The community grew out of the work of Oberto Airaudi (b. 1950), a precocious young man who involved himself in the lively metaphysical community of Turin in the early 1970s. He became a psychic healer and a Spiritualist medium. By 1974 he had established a following which he brought together in the Horus Center. Airaudi began to advocate the ideal of communal living and in 1976 a settlement was established on the present site of the community, which was officially constituted in 1979. Today it is an internationally renowned center for spiritual, artistic, and social research. Damanhur is an eco-society, a federation of communities and eco-villages.

What is so surprising about being at Damanhur is the rich mixture of culture that exists. It was surprising to discover that there is a history of the magical arts that goes back in time and includes Celtic, Etruscan and Egyptian influences along with healing traditions of Atlantis. Everywhere you step....everywhere you turn you will see the evidence of inspiration, education, philosophy, magic, ecology and political diversity, exploration and manifestation. This is a gathering of scientists, researchers, artists, mystics, philosophers, and most of all visionaries who have focused their energy on living in balance with each other, the earth and the cosmos.

Our visit begins at the Olami Welcome Center. Our journey into this magical community will include getting to know the people of the community, having a chance to listen and question Falco the spiritual leader of Damanhur, learning about their philosophy and healing traditions, walking the circuits in the Sacred Woods and above the temple, three visits with meditations (including sound) to the indescribable Temples of Humankind, experiencing the ritual of the Autumn Equinox and the Rite of the Oracle on the Full Moon, time with the Art and Creations of the communities artists, shopping at Damanhur Crea where you will find a plethora of workshops, stores, galleries, and delectable edibles, walking the Path of Souls (where we will do a despacho ceremony), learning about the Synchronic Lines that make this area unique, and experiencing Selfica and the healers of Damanhur. We will spend 12 glorious and transforming days exploring Damanhur and the Valchiusella Valley.

Our accommodations will be in our own private guesthouse. Breakfast, Lunch and Dinner will be prepared for us at the house. We will explore the local cuisine on a couple of nights to get a taste of the local fare.

This is a journey into the mystical and magical that is specifically and uniquely designed for the spiritual adventurer that is willing to step beyond the known into the unknown and yet explored.

And if this all excites you and you want to learn more about the Healing traditions of Damanhur you can extend your trip and stay for the.....

Pranatherapy Course at Damanhur: October 1 – 15, 2007

School for Spiritual Healers

Global medicine: a holistic attitude to healing the mind, body and spirit.

Foundation course in healing through Pranatherapy.

The School for Healers is structured as a three-year course, of about 200 teaching hours and 600 working hours. Each level (or year) consists of 2 intensive residential weeks.

The School for Healers offers a specially designed programme for foreign students with simultaneous translation from Italian into English, German, Croatian, French, Japanese. Lessons are translated if there is a sufficient number of student's who are talking the same language. The course consists of a 15-day intensive programme (undertaken once a year for 3 years) which is equivalent to a year's study over a longer period.
